GC24528-B 立柱式针杆离合双针平缝机

本机是海菱高台机的系列产品。双立柱式缝台，大型立式旋梭，针杆采用机械式分离机构。上下轴用滚珠轴承支撑，同步齿形带传动，旋钮式针矩调节装置及杠杆式倒顺缝装置。柱式缝台高度 178 毫米，可根据针位不同方便的调整。操作空间宽敞，回转灵活。由于采用针杆摆动与送布牙同步送料的方式，故特别适用于几层不同质地材料的缝制，可防止缝料层之间的滑移，线迹均匀美观。

This machine is a product of Highlead brand post bed lockstitch sewing machine series. It is designed with post bed, large vertical rotating hook, split needle bar, ball bearings for upper and lower shaft, cog belt, dial-type stitch regulator and lever-type reverse feeding mechanism. The 178mm post bed can be easily adjusted for different needle gauges. With synchronized feeding by needle bar and feed dog, it is specially available for stitching several layers of different texture material, as well as for preventing displacement between layers.

特殊规格针间距请在订货时指定
Please specify for special needle gauge when ordering

最高缝速 Max. sewing speed	2000 r.p.m.
线迹长度 Stitch length	0-5 mm
针杆行程 Needle bar stroke	33.4 mm
压脚提升 Presser foot lift	手动 By hand 7mm 膝控 By knee 10mm
机针 Needle size	DP × 5 11 [#] -14 [#]
针间距 Needle gauge	4.8mm (标准 Standard) 特殊 Special 6.4 8 9.5 12.7mm
旋梭 Rotating hook	立式自动润滑大旋梭 Auto lubricated large vertical hook
缝台高度 Highness of post-bed	178 mm
润滑方式 Lubrication	半自动润滑 Semi-auto lubricated
电动机 Motor	370 瓦缝纫机专用电机 370W Clutch motor
