HL781NP 高级珠边机

本产品是海菱服装系列设备中的专业机种。主轴用高性能伺服电机驱动。缝制速度调整、针距长度调整、珠点大小调整精准便捷。采用膝控提升压脚；具有手动剪线功能及珠点正反调整、半针调整按钮。设计独特的护针装置，即使在高速缝制，质地较厚的布料及转弯缝制时亦不易断针。本机除用高级珠边线外还可使用质量较好的缝制线，可减低用线成本。线迹平整挺括，极具实用性和装饰性。发光效率高、耗电低的LED照明灯，方便了操作者。适用于西服、大衣、职业装、休闲服、时装、衬衫等布料产品的装饰性缝纫。

This product is a special machine of Highlead brand garment machineries. The digital control system enables convenient and precise adjustment of sewing speed, stitch length and pin-point stitches. It is equipped with knee presser foot lifter, manual thread trimmer, top and bottom stitch changeover button and semi stitch button. The specially designed needle guard prevents the needle from breaking when sewing at high speed, or stitching thick fabric or performing corner sewing. Except super hand stitch thread, normal quality thread can also be used for reducing cost. The high efficient and low power consuming LED light offers convenience to operators. The fine performance with neat, practical and decorative stitches makes it available for decorative sewing on suits, overcoats, professional uniforms, casual wears, fashions, shirts, etc.

型号 Model	HL781NP 仿手工缝纫机 Hand stitch sewing machine
最高缝速 Max. sewing speed	350 - 500 r.p.m.
针杆行程 Needle bar stroke	37 mm
压脚提升 Presser foot lift	8 mm
线迹长度 Stitch length	0.5 - 7.0 mm 
缝线根数及长度 Number and length of thread	1 / 120 cm
送料方式 Feeding	下送料牙和交替式上送料牙 Lower feed dog and alternate upper feed dog
机针 Needle size	780C 16 [#] - 23 [#]
润滑方式 Lubrication	手工润滑 Manual
空气压力 Air pressure	0.5 MPa
主轴电动机 Main motor	220 伏 750 瓦伺服电机 220V 750W Servo motor
